## AN ANCIENT PRIZE-FIGHT.

Virgil's Description of a Fight Between Two Trojan Slaves.

The first prize-fight of which we have any detailed description, says the New Orleans Picayune, was specially reported by the great Latin poet, Virgil, in the fifth book of the *Æneid*. When Prince Æneas was escaping with his followers from the destruction of Troy he anchored his fleet off the coast of Sicily and landed the men and women for a season of rest. To celebrate the occasion he organized contests of archery, wrestling and boxing, besides a regatta and foot-races. The prize-fight was between Entellus, an old athlete, and Dares, a young champion of the ring. We are not told if the Marquis of Queensberry's rules were used or not, but there were scientific regulations. Both champions had their fists armed with gloves of rawhide and lead.

Entellus, stripped of his quilted coat, his body bare, composed of mighty bones and brawn, while Dares "his brawny back and ample breast he shows." Both were fifty years of age. Their fists were rawhide and lead. Their heads from aiming blows they bear afar. With clashing rattles then provoke the war. Before, behind, the blows are dealt; around their hollow sides with rattling thumps resound.

Heavy with age, Entellus stands his ground. But with his warping body wards the wound. His hand and watchful eye keep even pace. While Dares traverses and shifts his place. And like a captain who besiegers round. Some stronghold castle on a rising ground. Views all the approaches with observing eyes. And more on art than upon force relies.

Finally the old man grows warm and rushes upon his antagonist. He lays on loads with either hands amain. Nor stops nor stays, nor rest nor breath allows. But burns of strokes descend on Dares' brow.

The young man is beaten and has to be taken from the field.

His mouth and nostrils pour'd a purple flood. And broken teeth came rushing with his blood.

HOW ROCKETS ARE MADE.

Their Three Principal Purposes and Their Peculiar Construction.

Rockets, according to St. Nicholas, are made for three purposes: For signaling, for decorations or celebrations, or as projectiles in war. For signaling, the charge consists of twelve parts of niter, two of sulphur and three of charcoal. The ornamental or decorative rocket is the one we see used on the Fourth of July and the composition of which is made comprises 122 parts of meal or finely pulverized powder, eighty of niter, forty of sulphur and forty of cast-iron filings.

The main part of this rocket is a case, made by rolling stout paper, covered on one side with paste, around a wooden form, at the same time applying considerable pressure. The end is then "choked," or brought tightly together with twine. The paper case thus made is next placed in a copper mold, so that a conical copper spindle will pass up through the choke, and the composition is then poured in and packed by blows of a mallet on a copper drift or packing-rod made to fit over the spindle. The top of the case is now closed with a layer of moist plaster of paris one inch thick, perforated with a small hole for the passage of the flame to the upper part or "pot." The pot is formed of another paper cylinder slipped over and pasted to the top of the case and surrounded by a paper cone filled with tow. The "decorations" are placed in the pot and are scattered through the air when the flame, having passed through the aperture of the plaster, reaches a small charge of melted powder placed in the pot.

The stick is a piece of pine wood, tapering and about nine times the length of the rocket. It is to guide the rocket in its flight. The decorations in the pot may be "stars," "serpents," "maroons," "gold-rain," and so on. "Maroons" are small paper shells filled with grained powder and pinned with quick-match. "Serpents" are small cases about one-half inch in diameter in which is a composition of three parts niter, three sulphur, sixteen meal powder, one-half charcoal. This composition is driven in the case, the top of which is closed by plaster of paris, having a small aperture through which passes a piece of quick-match.

The Old German's Tale.

The Germans have a story which that home-loving people like to repeat. A father, when his daughter became a bride, gave her a golden casket with the injunction not to pass it into other hands, for it held a charm which, in her keeping, would be of inestimable value to her as the mistress of a household. Not only was she to have the entire care of it, but she was to take it every morning to the cellar, the kitchen, the dining-room, the library, the parlor, the bedroom, and to remain with it in each place for five minutes, looking carefully about. After a lapse of six years the father was to send the key, that the secret talisman might be revealed. The directions were followed. The key was sent. The casket was opened. It was found to contain an old parchment, on which was written these words: "The eyes of the mistress are worth one hundred pair of servants' hands." The wise father knew that a practice of inspection followed faithfully for three years would become a habit and be self-perpetuating—that the golden casket and the hidden charm would have accomplished their mission.—Folklore.

Ocean Steamship Profits.

There is an enormous profit in the steamship business during the spring and summer months, the gross receipts of a single voyage frequently rising above \$100,000.

BRODIE GOES OVER THE FALLS

At Niagara and Comes Out Alive.

A NEW CRUISER LAUNCHED

John L. Sullivan Declares His Intention of Running for Congress.

Steve Brodie Goes Over Horse-shoe Falls.

By Associated Press.

CLIFTON, Ont., Sept. 7.—Steve Brodie went over Horsehoe Falls this morning in a rubber suit. He was picked up below the falls in an unconscious condition and taken to Clifton. He recovered consciousness not long after, and an examination showed he was not seriously injured.

Brodie, with several friends and newspaper correspondents, arrived last night. They left the hotel at 4 o'clock this morning and went to a point 200 feet above the falls. Brodie then stripped and had his body padded with cotton batting and then put on a rubber suit, which was inflated to 52 inches around the waist and 75 inches around the chest. His headgear was also padded and inflated, while two steel bands protected his body.

At 5:30 Brodie, with a paddle, entered the water. He caught the current, waived the handle of the paddle, and in a few seconds he was shot over the center of the falls, and luckily he went with lightning rapidity over an outside of one of the falling volumes of water and was quickly lost in the mist and foam. He was buried from sight nearly two minutes, when he appeared on the surface and was carried towards the American shore, then suddenly hurried toward the Canadian shore, where his friend Ledger had ropes ready to draw him from the water. Ledger was stripped and swam out 200 feet with a rope fastened to his waist, while W. E. Harding held the other end on shore. Ledger after several attempts reached Brodie, fastened the rope to the iron bands around his waist then swam ashore and assisted in pulling the daring swimmer ashore. On Brodie being lifted on the rocks he was quickly stripped, bravely poured in small quantities on his temples while he was rubbed and chafed but he was insensible and blood oozed from his mouth and ears, probably from the shock or concussion. For 20 minutes Brodie lay until ammonia was applied to his nostrils when he began to shiver and gasp.

In describing his experience Brodie said after he entered the river he weakened and would have given anything in the world if he could have reached the shore. He attempted to get ashore by using his paddle, when the swift current swept him back and turned him feet first towards the brink of the cataract. When he saw that it was impossible to get out he felt the same as a man that was to meet death. Just as he came to the brink of the falls he became unconscious through fright, and remained so until he struck the water, clung into the foam at the base of the falls, when he was temporarily brought to by the force with which he struck the water. Then he again lost consciousness and knew no more until he found himself lying in his rubber suit at the waters edge.

There is no doubt that Brodie successfully went over the falls.

An Interesting Point.

By Associated Press.

WASHINGTON, Sept. 7.—A decision was rendered by the Land Office today in a case involving the rights of the U. S. to tide water lands on shores of a Territory. The question comes before the office on appeal by Frank Burns, Jr. from the action of the Register and Receiver of the Land Office at Seattle, W. T., who rejected his applications to locate the Valentine strip on the ground that it did not belong to the U. S. The Land Office holds that the U. S. is invested with the title of the tide water lands on the shores of Territories and that a Territory does not possess the sovereignty attached to statehood. The office therefore grants Burns' application for location.

John L. for Congress.

By Associated Press.

New York, Sept. 7.—The Sun this afternoon published a letter from John L. Sullivan, in which he announces his intention of running for Congress on the Democratic ticket. It is his ambition to represent the Boston District. He states with such high ambition he trusts that he will in the future make his life what it ought to be. Sullivan does not doubt his qualifications, as he says, in concluding that he will have no trouble in getting a hearing in Congress, or making Congressmen listen to what he says.

## Endorsing the Eight-Hour Law.

By Associated Press.

MONTREAL, Sept. 7.—The Dominion Labor Congress yesterday passed a resolution approving the eight-hour movement, Henry George's land taxation scheme, the appointment of a Compulsory Board of Arbitration for the settlement of all disputes between laborers and employers and asking the Government to pass a law compelling all cigar dealers to destroy empty boxes. The day labor for bakers was encouraged, and female type-setters, it was declared, should receive the same pay as men, or be prevented from working.

The Strike Settled.

By Cable and Associated Press.

LONDON, Sept. 7.—The dock companies have agreed to the demands of the strikers, but the rates of wages to be paid are to continue as at present. The advanced rate is not to go into effect until January 1st. It is made a condition of the arrangement that all the strikers shall resume work on Monday. Burns and Tillett have signified their acceptance of the companies' terms.

The hay and grain privilege was awarded to A. McIntosh & Co. for \$22 50. The bar privilege was awarded to L. Hirschberg of Virginia City for \$900.

Victor Victorious.

On Thursday a very hard race was begun between Victor, Valentine and Direct, which was not closed until yesterday. Six heats were trotted on Thursday, and the last heat was won by Victor, but the Judge declared it no heat on account of the darkness. Before the seventh heat Direct sold for \$50 in the pools and the field for \$25.

About 40 yards before coming under the wire Victor broke badly, but his driver caught him up beautifully, and he came under the wire making a dead heat with Direct. Time—2:24 1/2. Before the eight heat Victor was selling \$100 and Direct for \$15. They got off neck and neck, but Victor forged slightly ahead at the first turn. At the quarter Victor led by a nose; time, 37 1/2. Victor won the heat and first money by five lengths 2:26. Goldsmith drove Victor.

## If Not, Why Not?

The Revelle says: The San Francisco papers continue, in their dispatches to refer to Winters' horse, El Rio Rey, as the unbeaten colt from California. We would suggest that the telegraph editor look up the location of Reno, and he will find that it is situated in the State of Nevada. It is a Nevada horse that is beating the best two-year-olds all over the country, and in the future our grasses and climate will be recognized as the place to raise record-breakers. Horses raised in this State have good sound lungs and bottom. We would suggest that our San Francisco dailies should correct their error and speak of the horse hereafter as the Nevada record-breaker.

## Ancient Masonic Ceremonies.

The Silver Star says: In accordance with the usages of the Craft from a time which neither the memory nor the writings of man runeth to the contrary, the Grand Lodge of ancient, Free and Accepted Masons of Nevada will lay the corner stone of the new edifice now being built by the Fraternity here. Grand Master Hinchcliffe is expected to arrive here to-night and until his arrival no definite time can be fixed for the performance of the ceremonies. It is tolerably certain, however, that the Grand Lodge will arrive upon the ground about 3:30 p. m. as that will give members from the western part of the State an opportunity to get here on the afternoon trains.

## Does Rainfall Increase?

An exceedingly valuable report has just been issued from the weather bureau at Washington on the rainfall of the Pacific slope and Western States. Some of the stations are covered for fifty years and others for only five or six. Fifteen large charts show the rainfall by the month, then the least, the largest and the mean for all the country west of the 93d meridian. The result shows how great the error has been as to the arid region. The tenth census showed an area of 241,000 square miles with less than ten inches of rain, which has been reduced to 126,000 and a similar reduction in the fifteen inch area.

The question of the increase of rainfall seems to be satisfactorily settled in Utah. Great Salt Lake has risen and fallen in forty years several times, but notwithstanding the fact that irrigating ditches are increasing in size and numbers, the lake rises higher and falls less at each change.

The record at Austin, Texas, covers 32 years. The average of the last half was 5.1 inches greater than the first.

At Camp McDermitt, Nev., the last nine years was 8.1 inches greater than the previous nine.

Camp Bidwell, Cal., has 21 years on record and the last half was one inch greater than the first half.

Boise, Idaho, has exactly the same report.

At Sacramento for forty years the last half is 0.5 less than the first half.

At Stockton for twenty-four years the increase was .1.

At Camp McDowell, Arizona, the first half of twenty-one years was larger by .5.

Out of eighteen cases twelve have increased the last half, and in six the first half is larger.

Kansas and Nebraska have seasons of severe drouth, but the reports of twenty years do indicate some increase. There is an increase in the number and size of springs but not of streams, following cultivation, which seems to show that there is a greater retention of moisture in the soil. All the evidence indicates that there is some increase of rainfall with the setting up of a country.

The chief signal officer does not hesitate to express the opinion that the trans-Missouri rainfall is slightly increasing as a whole. There appears no possible reason to believe that the scanty rainfall of the past year or two will not be followed by increasing precipitation in the next few years.

The whole report is both valuable and interesting, and well worth the study of our people. It may doubtless be had of General A. W. Greeley, Chief Signal Officer, Washington, D. C.

The Elko Free Press says: No appointment has yet been made by the Governor to fill the vacancy caused by the death of Lieutenant-Governor Davis. The Free Press suggests that the Governor appoint some good citizen who is willing to accept the office for the honor, and give the salary to the widow and little ones of the late Lieutenant Governor.

The generous editor of the Free Press would doubtless accept.

The Free Press says: "The election of Russell Alger as Commander-in-Chief of the G. A. R. is a footstep toward the Presidency." Don't waste powder. Mr. Alger is not made of the right stuff for a President of this Republic.

## ELKO ITEMS.

From the "Free Press" of September 7th.

There are four patients in the County Hospital.

The nights and mornings are getting quite cool. Ice forms almost every night.

It is rumored that several weddings will take place in Tuscarora during the next three weeks.

Bartlett & Ostricher received a carload of Boca beer Monday. This makes eleven carloads of this beer received by the firm since November.

Upon the request of Attorney-General Alexander, the hearing of the Foss case has been postponed for ten days. It was to have come up in the Supreme Court last Monday.

There are eight prisoners in the County Jail. Four of these are held for murder - Foss and wife, sentenced to be hanged, but whose case has been appealed to the Supreme Court; E. S. Kendrick, who murdered Higo; and Tuscarora Jake, the Indian who killed two of his tribe in Tuscarora. The other four prisoners are held for various criminal offenses, and await the action of the next Grand Jury.

## CHURCH NOTICES.

**METHODIST CHURCH**—Rever J. H. DeLaMaty will preach to-morrow at the M. E. Church at 11 a. m. and Rev. C. H. Gardner at 7:30 p. m. Sabbath School will follow the morning service as usual.

**TRINITY CHURCH**—Morning prayer and sermon at 11 a. m. Sunday School at 12:30 p. m. Evening song without sermon at 7:30 p. m.

**S. Jacobs, the Leading Merchant Tailor**  
Of Reno, will leave for San Francisco this evening for the purpose of selecting the finest imported and domestic goods suitable for the coming styles, ever brought to this market, and prices will be reduced so as to enable all to purchase without giving orders to snide drummers and get misfits, where I guarantee a fit on all occasions. In connection with the above establishment I shall also have a fine selection of gents' furnishing goods, hats and caps, trunks and valises. Hoping the community will wait for the arrival of my new goods and inspect them, I extend a cordial invitation to all, I remain,  
S. JACOBS.

**Karl Gardner.**  
Karl Gardner will be here on the 13th and 14th of September. The Examiner says of him: "There is always a demand, too, for the German comedy of the Fatherland type, and Karl Gardner, the latest exponent of it, is also one of the most satisfactory. His dialect has the necessary glossiness, he dances very neatly, and he sings as well as he dances. If we must have the Dutch dialect play, it is pleasant to have its hero as well equipped as he is."

**State Land Office.**  
During the week ending Sept. 6th eleven applications for State land were filed, embracing 5,133 54 acres.

## ADVICE FROM BELOW STAIRS.

"Bridget, I would give all my wealth for half of your health."

"Sure, ma'am, you need only give \$5, for that's the price of six bottles of J. V. S., as the boys call it. Joy's Vegetable Sarsaparilla will make you as strong as me, ma'am."

Mrs. J. Barron, of 142 Seventh street, San Francisco, writes: "I have been taking Joy's Vegetable Sarsaparilla with immense benefit. It is perfectly splendid to build up nervous, run-down and worn out women." Mrs. Fred Loy, of 327 Ellis street, Mrs. G. Werner of 255, Jerry street, and hundreds of others relate the same experience with the pure vegetable juices of this California compound.

### DRY GOODS STORE.

THIS store is now being generally known all over the State of Nevada as the popular ONE PRICE dry goods house, and its proprietor, C. W. Booton, is well known as the

Revolutionizer of Prices and the Re-Adjuster of Values

—IN—

## Staple and Fancy Dry Goods

Gents' Furnishings, Household Furnishings,

### Ready Made Clothing

### And Boots and Shoes.

Please note the various reasons by which I claim I have advantages over all competing houses.

1st. I buy for cash and cash only.

2d. I visit the markets in person frequently and buy my own goods myself for the lowest possible spot cash price.

3d. My aim and ambition is big business, quick sales and small profits. This is what I claim and what I strive for. Having this object in view to give everybody good value for their money, success is already achieved, as I challenge any one to dispute that I make the lowest prices.

4th. My store is the largest and best lighted of any in the city—the three large plate glass show windows which ornament the building would do credit to any large store in a large Eastern city, light being of great importance in any well regulated store.

5th. I engage the best and most experienced and skilled salesmen that can be found in this country. W. R. Lett has full charge of my store; his experience is second to none in this country, having had charge of departments for many years in the leading houses of New York City.

6th. I do just as I advertise: I do not advertise my goods at cost, as no intelligent person could swallow so silly an announcement as that; nevertheless, many of our merchants of to-day advertise under the head of selling goods at cost.

7th. All goods are marked in plain figures and no goods are misrepresented.

Having now given seven reasons why I can lead all competing houses in prices, I will venture still further to convince the general public by mentioning the contents of the different departments, thus showing that I carry an enormous and well-selected stock, which can only be fully realized by calling and examining the goods of the different departments.

### In the Colored Dress Goods Department

I keep all the leading shades in plain colors, including Fine French Cashmeres, French Camel's Hair, Beatrice Cloths, French Foule, Tricot Cloths, Tricotine Cloths, Albatros, Nuns' Veiling, French Drapery, Fancy Striped Alpaca, in plaids and stripes. I keep all the leading patterns found in the market.

### The Black Goods Department

Is well stocked with all the latest and best known brands of French Cashmere, French Camel's Hair, French Soliel, Albatros, Nuns' Veiling, Sicilian Cloths, and all the leading brands of Black Alpaca, Black and Colored Silks in all the different makes.

### The Corset Department

Receives special attention, as I carry all the leading makes, including the famous C. P. Corset, and also the P. D., which I sell at prices that defy competition.

### The Kid Glove and Button Department

Are replete with all the shades that can possibly be obtained this side of the Rocky Mountains.

### The Hosiery Department

Deserves special mention, as I have been supplying it during the past two weeks with the very best brands of Ladies' Cotton and also Wool Hosiery that are manufactured on this Coast. My stock of Ladies' Misses', Children's and Men's Hosiery is unsurpassed in the city. Passing on we come to

### Shoe Department.

This is a special branch that I have added to my business by special request of my customers, who continually urged me to put in a stock of Boots and Shoes, claiming, as they said—I using their own language—they were tired of paying high prices any longer. I subsequently added the above stock, and will say that my success in that department has superseded all my expectations. Men's and Boys' Shoes a specialty. Men's Shoes from \$2.50 up.

### In the Clothing Department

I cannot do it justice by venturing to describe the success that continually attends it. I can only add one passing remark, that the amount of clothing I have sold during the past year is a just guarantee that the public never fail to appreciate a ONE PRICE cash business. I sell good suits for men from \$5.00 up.

### In the Underwear Department,

Including Ladies' and Gents', I positively state that I sold more of these goods last season than any two competing houses. Knowing this, and then looking forward for an enormously increased trade in this line this coming Fall and Winter, I have spared no pains and have left nothing undone to secure one of the best selected and largest stock of Underwear ever brought to Reno. This true assertion will be more forcibly strengthened by anyone doubting it to call and examine the stock.

### In the Domestic Department

I carry all the principal makes in Sheetings, Pillowcase, uslins, etc. Gingham and Calicoes in endless variety.

Thanking the people of Reno and the public in general for their kind patronage for the past year, and soliciting a continuance of the same, I remain, respectfully,

Transferred.

The Silver State says in its report of court proceedings:

J. A. Hardin vs. The Southern Pacific Company. In the matter of the application of defendant to remove this cause to the United States Circuit Court, for the Circuit and District of Nevada, Messrs. Baker and Winter appeared for the defendant and Messrs. MacMillan, Leonard and Lindsay for the plaintiff. After argument by respective counsel, it was ordered by the Court, that the petition and bond of plaintiff be accepted and that said case be removed to the United States Circuit Court of Nevada.

A GENEROUS MAN.

Matt McCabe, of New Brunswick, Ill., offers to pay five dollars to any person troubled with bloody flux, who will take Chamberlain's Colic, Cholera and Diarrhoea Remedy according to directions and does not get well in the shortest possible time. One-half of a 25-cent bottle of this remedy cured him of bloody flux, after he had tried other medicines and the prescriptions of physicians without benefit. Mr. McCabe is perfectly safe in making this offer, as more than a thousand bottles of this remedy are sold each day and it has never been known to fail in any case of colic, cholera morbus, dysentery, diarrhoea or bloody flux, when the plain printed directions were followed. For sale by Osburn & Shoemaker.

In Funds.

According to the statements of the Secretaries, filed last Monday, says the Times-Review, the financial condition of the Tuscarora mines on the 1st instant is as follows: Cash on hand—\$1,188 00; Indebtedness—Del Monte, \$3,322 25; North Belle Isle, \$10,273 20; Belle Isle, \$3,823 90; North Commonwealth, \$6,220 50; Navajo, \$12,769 22.

Cholera in Michigan.

D. F. D. Lark, of Rogers City, Michigan, says the epidemic of last year in Presque Isle county, in which so many persons lost their lives, was choleraic dysentery instead of cholera as first reported. He used Chamberlain's Colic, Cholera and Diarrhoea Remedy and says it succeeded, where all other remedies failed. Not a single case was lost in which it was used. This remedy is the most reliable and most successful medicine known for colic, cholera morbus, dysentery, diarrhoea and bloody flux. Twenty-five and fifty cent bottles for sale by Osburn & Shoemaker.

The New Discovery.

You have heard your friends and neighbors talking about it. You may yourself be one of the many who know from personal experience just how good a thing it is. I have ever tried it, you are one of its staunch friends, because the wonderful thing about it, is that when once given a trial, Dr. King's New Discovery ever after holds a place in the house. If you have never used it and should be afflicted with a cough, cold, or any throat, lung or chest trouble, secure a bottle at once and give it a fair trial. It is guaranteed every time, or money refunded. Trial bottle free at S. J. Hodgkinson's.

Buckskin's Arnie's Advice.

The best advice in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Hodgkinson & Co., druggists.

A Sound Legal Opinion.

R. Bainbridge, Munday Esq., County Atty., Clay Co., Texas, says: "Have used Electric Bitters with most happy results. My brother, was also very low with Malaria Fever and Jaundice, but was cured by the timely use of this medicine. Am satisfied Electric Bitters saved his life."

Mr. D. I. Wilkinson of Horse Cave, Ky., adds a like testimony, saying: "He positively believes he would have died had it not been for Electric Bitters."

This great remedy will ward off, as well as cure all Malarial Diseases, and for all Kidney, Liver and Stomach disorders stand second to none. Price, 50c and \$1 at Hodgkinson's.

AT THE TRACK.

General Activity Displayed and Preparations for the Fair Going Bravely on.

A visit to the track is not without interest, for there are flyers there that promise well and it is interesting to watch them exercise. Among the most notable is Theo. Winters' stable. Fair of Haskell, a bay two-year-old, and a get of old Norfolk, promises to be a rival El Rio Rey in the near future. He ran three-quarters of a mile this morning in his exercise in company with Florence A., a full sister of the Courtney in 1:20. Noetta, another of Mr. Winters' horses promises well and visitors to the Fair can look for some fast work from his stable. Besides these he has a yearling filly that he recently bought in the East, which he is working but he proposes to breed her to El Rio Rey. Col. Wm. Thompson from Fort Bidwell, has a string of thoroughbreds, namely, Sadie C, Lulu S and another one that he expects to put in the barrel with. They are of the Hooker strain.

Prospect, the 3-year-old Hamiltonian recently bought by Hans Johnson of Abrahams Brothers, is doing good work and will make somebody trot if they beat him. There are a number of other trotters in training.

Several citizens have contributed \$50 as a special premium to any one turning out the finest four-in-hand with carriage, which will be a feature.

President Winters has at his order expense erected two stands—one on the east side of the homestretch for a timer's stand, and one on the west side for a judge's stand, and the old judge's stand will be used by the reporters. Take it all in all, the State fair 1889 promises to excel all others.

OLD JIM BURGE.

A remarkable man from a remarkable family.

Old Jim Burge is so well known by every man woman and child in Reno and Truckee that it is not necessary to introduce him to the public, but suffice to say he is a typical westerner, with all the characteristics of a 49er.

He gets up in the morning about 5 o'clock and starts in on his cocktail route, which, he says, is the best one in town. He lives in a little cabin just east of town and on his way up the Palace is the first place he strikes, where he gets his first "nip."

He then goes to the Arcade Saloon where he takes a second drink, he works the route down as far as Chase & Church, stopping in at the Wine House and Monarch, and occasionally he gets to Herman Thyes' side-board and cools his coppers with some of Thyes' best, after drinking this down he generally stops for a few minutes, takes another drink and starts back, taking particular pains not to over-look a bet on his return. With eight or nine drinks aboard he has an appetite for his breakfast and goes to the cabin for it.

He told a GAZETTE reporter that a nice thick juicy steak, with a few fried potatoes, five fried eggs, a cup of coffee with an egg in it and a hot roll was all he wanted for breakfast. Jim is 74 years of age and as fresh as a boy yet and promises to live another three score and ten. He is from a long-lived family, as his father lived to be 117 years and eight months old and the last time he heard from his mother was in 1880, who, at that time, was 116. He don't know whether she is alive yet or not. He has a brother living at Laurel Bluff, Ky., who is 104. Jim is truly a remarkable man.

M'KISSICK'S OPERA HOUSE.

A Pleasant Evening in Store for Renosites.

Miss Rose Coghlan in "Jocelyn" is highly spoken of by the press. The New York Times says: It was a pleasure to help in the welcome Miss Rose Coghlan received at the Star Theatre last night. Everybody was really glad to see her, to hear her pleasing voice, to watch her earnest and graceful acting in her brother's romantic drama, "Jocelyn."

Miss Coghlan was never handsomer, and the gowns of Jocelyn became her well. The play was interrupted in a very exciting moment to allow the clivadic and impressing occupants of the gallery to express their admiration of the beautiful picture she made in her wedding gown.

Engage your seats before it is too late, for the house is bound to be crowded.

Encouraging News.

WELLS, Nev., September 6, 1889. EDITOR GAZETTE: Reports from Ruby and Clover Valleys indicate enough of hay put up to insure safe wintering of stock. A great many stock have been sold and driven out during the summer.

A Mr. Anderson, a Government contractor of the Crow Reservation in Montana, has purchased several hundred head of steers in the above named valleys.

A Water Dispute. A GAZETTE reporter who this morning took a run down the Truckee river a short distance, was informed that the first personal collision of the season, growing out of the irrigating problem, has taken place on the South side.

Got His Sentence. Hill, the man who robbed the south-bound Bidwell stage and shot the Sheriff when he was arrested, pleaded guilty yesterday and was sentenced to 17 years in San Quentin by the Supreme Judge of Lassen county.

Lacks Confirmation. A Red Bluff editor saw a lady merchant there getting in a new assortment of goods, and he said in his paper: "We are anxious to see her stocking up." When he met her on the street the next day she lambasted him with her parasol and tongue, and he is now trying to find out what he said.

Hebbe So.

It is said there is a hitch as regards running passenger trains between the U. P. and S. P., and it is charged that the former make no effort to run trains on time. This accounts for No. 4 being so frequently late. A new time card may be looked for soon.

May and Feed.

McIntosh & Co. can supply hay, feed and flour at the lowest price, either wholesale or retail. See their ad.

BREVITIES.

Local and General Intelligence. See first page for telegraph news.

A match factory in Reno would pay. There are 103 statements of water rights recorded in Douglas county.

Go to the White House if you want a fine suit of clothes before Fair week. Dining cars will be run on the Union Pacific between Ogden and Omaha next week.

The Truckee baseball club went to Carson this morning to play the Virginia City club.

Robert Lewers of the Dayton school killed a rattlesnake under his desk on Thursday morning.

M. Nathan was the first Virginia street business man to elevate his sign in accordance with a recent ordinance.

The GAZETTE acknowledges the receipt of a ticket to the Quincy Fair, to be held from September 23d to the 27th inclusive.

Ticket Agent Phillips sold \$1,300 worth of railroad tickets one morning last week. Who says that there is no money in Nevada?

Excellent, reliable and economical are the stoves and ranges sold by Lange & Schmitt; every house and store should have them. Call and inspect before purchasing.

BOUND TO COME.

New Railroads Will Necessarily Have to Be Built.

In the very nature of things new railroads will be pressed into Nevada and California very soon. No part of America offers so much undeveloped territory, and capital is all the time on the search for such places. A San Diego dispatch contains information of the first importance to Nevada. It says the Union Pacific has all arrangements made to take a short cut with the Atchison in the operation of the California Southern, assuming part of its five million dollar liability. The U. P. will immediately build 400 miles to connect its road with Los Angeles and San Diego. The new track will run from Frisco, Utah, to Barslow.

The Nevada Central will undoubtedly run down from Austin to connect, and the Carson & Colorado will go to it, so as to give it some of the business of Virginia, Carson, Reno and the country north. It will give Reno two outlets and will be next to a direct connection with Salt Lake and the roads beyond.

PERSONAL.

D. A. Bender came over from Carson last night.

Miss Onie Gould left this morning on a visit to friends at Auburn, Cal.

Theo. Winters, wife and daughter came down from Washoe last evening.

C. N. Noteware of Carson and P. A. Doyle of Virginia were here last night.

E. Ferris of Long Valley arrived in town yesterday with sixty head of beef cattle.

Miss Maude Boardman, who spent the hot months at the seashore, has returned home.

C. M. Fassett and family left this morning for their new home at Spokane Falls, W. T.

Oliver Roberts, the proprietor of the Tallac House, Lake Tahoe, was a passenger for Carson this morning.

Miss Tina and Carrie Bellmer of Sacramento, who have been visiting Miss Onie Gould, returned home this morning.

Mrs. Davis, nee Miss K. Kinkead, who has been visiting Reno relatives and friends, returned to San Francisco this morning.

Col. Lyman Bridges has been relieved as Chief Engineer of the Labor Division of Surveys and W. Ham Hall succeeds him.

Misses Echo Loeder and May Eaton have returned to the State Normal School at San Jose, California, where they will graduate next June.

W. E. Griffin and J. P. Dunkel of Eureka are seeking the position of Receiver of Public Moneys for Eureka. L. W. Croner of Eureka wants to be Deputy Collector of Internal Revenue.

Ex-Lieutenant-Governor Charles E. Langston has been nominated for that position by the Republicans of Washington and will doubtless be elected, as he stands well up there. Nevada wishes him well.

The Elko Independent says: "Mrs. Pullman is visiting in Reno, and it seems to take A. J. a long time to paint his house, probably owing to windy weather."

Mrs. Pullman is Mrs. Coffin's mother.

Careless Shooting at Truckee. A man, whose name was not obtained, in handling a 45-calibre pistol preparatory to cleaning, accidentally discharged it yesterday at Truckee and the bullet struck a brakeman of the Sacramento division on the wrist and glanced to the fleshy part of the arm, near the shoulder. The bullet plowed its way through the flesh without injuring the bones, but made an ugly flesh wound.

A Water Dispute. A GAZETTE reporter who this morning took a run down the Truckee river a short distance, was informed that the first personal collision of the season, growing out of the irrigating problem, has taken place on the South side.

Got His Sentence. Hill, the man who robbed the south-bound Bidwell stage and shot the Sheriff when he was arrested, pleaded guilty yesterday and was sentenced to 17 years in San Quentin by the Supreme Judge of Lassen county.
